SKILLS

-  Frontend & Backend Development
-  C, Python , DBMS, JAVA
-  HTML, CSS, JS, SQL
-  Logical Approach
-  Teamwork

EDUCATION

Children College Azamgarh
(Class 10th) ICSE
Year of Completion: 2022

Children College Azamgarh
(Class 12th) ICSE
Year of Completion: 2024

Lovely Professional University (LPU)
Punjab, India
Bachelor of Technology (B.Tech) in Computer
Science Engineering
Expected Graduation: 2028
"Pursuing"

ABOUT ME

Aspiring Full Stack Developer and AI Specialist with a passion for solving real-world problems through technology. Eager to contribute to innovative projects and build scalable, impactful applications. Seeking to work with global tech leaders and dynamic startups where I can apply my skills in full stack development and AI solutions.

PROJECTS

1. Fake News Detection System

Technologies: Python, (NLP), TensorFlow, Flask

Developed a machine learning model to detect fake news articles with high accuracy. Integrated the model with a simple Flask web application for real-time news verification. Applied techniques like TF-IDF, Passive Aggressive Classifier, and LSTM models.

2. Carbon Footprint Tracker (AI-based)

Technologies: Python, Machine Learning, Streamlit, Firebase

Designed an AI-powered app to estimate individual carbon footprints based on daily activities. Implemented predictive models to suggest lifestyle changes to reduce carbon emissions. Built a user-friendly interface using Streamlit and stored user data securely on Firebase.

CERTIFICATIONS

• Introduction to DSA (MOOC Course)

Completed a comprehensive course in DSA, covering concepts such as various data structures like arrays, linked lists, stack, queue, graphs and more

• Data Management (Excel & Tableau)

Learned advanced Excel functions and Tableau for effective data visualization and analysis.

• HTML & CSS Certification

Certified in building and styling websites using HTML and CSS.

• Hackathon Certificate (Top 10 Finisher)

Achieved a top 10 position in a hackathon, showcasing innovation, teamwork, and problem-solving under pressure.
