

RAJNEESH KUMAR

Full-Stack / MERN Stack Developer | +91-78141 53778 | rajneeshqwer@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience building responsive web applications using React.js, Node.js, Express.js, MongoDB, Next.js, and RESTful APIs. Skilled in authentication, reusable component architecture, database CRUD operations, and frontend-backend integration; seeking a Full-Stack / MERN Stack Developer role.

TECHNICAL SKILLS

Languages: C++, JavaScript, C, PHP, Python, TypeScript

Frontend: HTML, CSS, Bootstrap, React.js, Next.js, Tailwind CSS

Backend & Databases: Node.js, Express.js, MongoDB, MySQL, RESTful APIs, JWT

Tools: Git, GitHub, Docker

SOFT SKILLS & STRENGTHS

• Problem-Solving • Teamwork • Communication • Leadership • Project Management • Adaptability • Event Coordination

PROJECTS

FLEET FLOW | Fleet Management Platform

April 2026 – August 2026

- Built a full-stack fleet management platform for managing vehicles, drivers, trips, and operational workflows.
- Integrated JWT authentication, role-based access control, RESTful APIs, and MongoDB to support secure data handling.
- Designed a responsive dashboard to streamline fleet tracking, monitoring, and day-to-day operations.

DevConnect | Developer Networking Platform

June 2026 – September 2026

- Engineered a developer networking platform focused on connecting developers and enabling collaboration.
- Built responsive user interfaces using reusable components for a consistent and maintainable user experience.
- Structured frontend and backend features to support scalable development and efficient application workflows.

MEDIGO | Healthcare Web Application

January 2026 – April 2026

- Developed a responsive healthcare web application focused on delivering a clean and user-friendly experience.
- Built reusable and modular components to improve code maintainability and simplify future feature development.
- Leveraged Next.js, React.js, TypeScript, and Tailwind CSS to create a modern and scalable application architecture.

EXPERIENCE & TRAINING

MERN Stack Development | Lovely Professional University

June 2026 – July 2026

- Completed hands-on training in responsive full-stack applications, backend APIs, database CRUD operations, authentication Git/GitHub, RESTful services, and frontend-backend integration.

EDUCATION

Lovely Professional University — B.Tech, Computer Science & Engineering | CGPA: 7.04

August 2024 – Present

Army Public School, Mamun Cantt, Pathankot — Intermediate | 74%

2022-2023

Army Public School, Mamun Cantt, Pathankot — Matriculation | 88.8%

2020-2021

CERTIFICATIONS & ACHIEVEMENTS

- React.js — Tech Veda | MOOC; Ethical Hacking — Skillera | MOOC.
- Student Career Committee (SCC): Integral member contributing to career-focused initiatives, student engagement, and campus operations.
- Organized and volunteered at 20+ technical events; hosted and coordinated 2 hackathons, supporting logistics, participant coordination, and event execution.
